Welcome

Thank you for attending today’s meeting!

The purpose of the meeting is to provide information about the preliminary design of the US-95 Little Salmon River Bridge and gather input. ITD encourages your participation in this project. Please provide your comments and ask questions.
The Idaho Transportation Department is developing plans to replace the Little Salmon River Bridge located west of New Meadows on US-95.

The bridge was constructed in 1948 and is in need of replacement. The new bridge will improve safety on the roadway.
## Process and Schedule

### ANTICIPATED SCHEDULE

<table>
<thead>
<tr>
<th>Task</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Begin preliminary design</td>
<td>2018</td>
</tr>
<tr>
<td>Present project to public/gather input</td>
<td>Fall 2019</td>
</tr>
<tr>
<td>Complete design and finalize project plans</td>
<td>Spring 2020</td>
</tr>
<tr>
<td>Begin construction</td>
<td>Spring/Summer 2021</td>
</tr>
</tbody>
</table>
The Little Salmon River Bridge was built in 1948 and has reached the end of its service life. The bridge is still safe to travel today, however, ongoing rehabilitation and maintenance is no longer practical. The new bridge will serve the community well into the future.

**Preliminary design plans include:**

- Two travel lanes (one in each direction).
- Wider shoulders to accommodate bicyclists and pedestrian.
- Upgraded railing.

The new bridge and roadway approaches will be upgraded to current rural highway standards.
Thank you for attending today's meeting. The Idaho Transportation Department appreciates your interest and feedback.

Public input will help ITD finalize design plans and prepare the project for construction.
