Welcome
I-84/ID-50, Kimberly Interchange Project
Project Background

The interchange is a key agricultural and industrial route for accessing the Magic Valley along Idaho Highway 50. As the area grows and more commercial and residential development occurs, the interchange will become even more critical to the safe movement of people and goods.

Improvements are needed to maintain safety, improve mobility and foster continued economic development in the area.

Proposed Interchange Types

- Single Point Urban Interchange
- Diverging Diamond Interchange
- Partial Cloverleaf Interchange
- Diamond with Roundabouts
- Traditional Diamond Interchange with Signals
- No-build
Proposed Interchange Types

Diverging Diamond Interchange (DDI)

Single Point Urban Interchange (SPUI)
Proposed Interchange Types

Partial Cloverleaf Interchange

Diamond with Roundabouts
Proposed Interchange Types

Traditional Diamond Interchange with Signals
