

Little Goose Creek Bridge Replacement

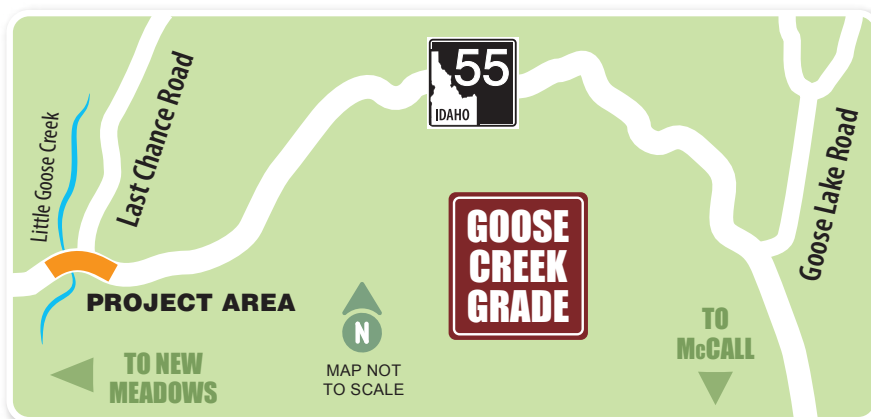

The Idaho Transportation Department (ITD) is developing plans to replace the existing Little Goose Creek bridge in Adams County. The existing bridge was built in 1931.

The purpose for this replacement is to enhance the overall safety, mobility and needs of the traveling public.

PROCESS/TIMELINE

Develop preliminary and initial design plans	Spring/Summer 2021
Conduct public outreach during design	Summer 2021
Finalize design plans	Fall 2021
Construction anticipated to begin	Spring 2023

DESIGN PLAN INCLUDES

- Replacing the bridge
- Improving the approach at Last Chance Road
- Widening shoulders

In order to replace the bridge, it is anticipated Last Chance Road will be closed for approximately six months. Last Chance Road is expected to be open for the 4th of July Holiday weekend.
