

# Little Goose Creek Bridge Replacement

The Idaho Transportation Department (ITD) is developing plans to replace the existing Little Goose Creek bridge in Adams County. The existing bridge was built in 1931.

The purpose for this replacement is to enhance the overall safety, mobility and needs of the traveling public.

## DESIGN PLAN INCLUDES

- Replacing the bridge
- Improving the approach at Last Chance Road
- Widening shoulders

Construction is expected to begin in 2023.
